

Biography for Geoff Simons

Geoff Simons, having written several books in his teens, became a technical author at twenty. He was later employed as a Chief Editor and Managing Editor in a major publishing house, continuing to write his own books on various subjects. Several of his works have been adopted for university and college courses, and have been translated into a dozen languages, including Russian, Japanese and Arabic. In addition to his 57 published books Geoff Simons has written hundreds of articles and reviews for the general and technical press. He is married with two sons and two daughters.
